JAIME ANDRÉS CARDONA MONTERO

Software Engineer | Backend, AI & Security

PROFESSIONAL SUMMARY

Software engineer experienced in backend, AI and enterprise systems, with independent paid IT support for Pontevedra S.A.S. Implemented MikroTik network security, L2TP/IPsec VPN, firewall policies, NAT and secure access to Windows Server. Experienced with APIs, cloud deployments and AI-enabled applications.

PROFESSIONAL EXPERIENCE

Pontevedra S.A.S. | Cali, Colombia

Independent IT Support & Network Security Specialist | 2026 - Present

- Provide independent technical support paid per service, maintaining business connectivity and IT infrastructure.
- Configure MikroTik RouterOS, firewall input/forward rules, NAT, subnet routing and fixed public-IP connectivity.
- Implement and troubleshoot L2TP/IPsec VPN, ESP traffic and secure Windows Server access via RDP.

Fundación Universitaria de Popayán | Colombia

Software Engineer | Oct-Nov 2026; Feb-Mar 2027 (4-month contract)

- Implementing Raíces Conectadas, a geospatial platform for producers, farms, territorial information and sustainable agricultural practices.
- Building React/TypeScript and FastAPI workflows with Supabase/PostGIS, GPS-based data capture and interactive geographic mapping.

RCKT | Remote

Software Engineer, AI Platform / Full-Stack | Jun 2026 - Present

- Build and integrate AI-enabled web applications and backend services using TypeScript, React, Supabase, APIs and cloud deployment tools.
- Develop reusable agent workflows and collaborate on scalable architectures and service integrations.

Opportunity Hound | Phoenix, Arizona / Remote

Software Engineer | Sep 2025 - Mar 2026

- Developed backend APIs and government-contract data pipelines using AWS, MongoDB and Elasticsearch.
- Enhanced data search, indexing and retrieval for high-volume contracting intelligence.

DIAN - Dirección de Impuestos y Aduanas Nacionales | Cali, Colombia

Systems Engineering Intern | Feb - Aug 2025

- Developed technology solutions deployed across national offices; received three official commendation letters.

CORE SKILLS

MikroTik	VPN / IPsec
Firewall / NAT	Network Security
Windows Server	AWS
Python	FastAPI
TypeScript	React
Elasticsearch	Supabase
REST APIs	Docker
LLMs / Agents	Git / GitHub

EDUCATION

B.S. in Systems Engineering

Universidad de San Buenaventura Cali
Graduated Mar 2026
GPA: 4.3/5.0

SELECTED CREDENTIALS

- CertiProf CAPC - Cybersecurity
- Cisco: Intro to Cybersecurity
- AWS Academy Cloud Foundations
- Oracle OCI AI Foundations
- Scrum Foundation
- IEEE-published Co-author

"Curious mind. Real-world impact."
